Dear Dave

Central Heating checks

I would like to thank you for the central heating checks you have been carrying out for several of my clients on their move to new properties. Most have been first time purchasers very anxious about the move and all things connected. Without exception they have come back to thank me for recommending you, for your prompt attendance, professional service and very helpful manner. It is excellent to have an engineer I can happily recommend to my clients and I shall continue to do so.

Thanks again!

Kind Regards

Yours sincerely

Margaret B Waldron
